<input type="checkbox"/> Single Family Home <input type="checkbox"/> Residential Rental <input type="checkbox"/> Other _____
Number of EDU's Requested _____ (1 EDU = Single Family Home, 1 Apartment or 1/2 Duplex House) <i>Note: All EDU calculations must be reviewed/ approved by the Authority prior to permit issuance</i>

If Nonresidential:

<input type="checkbox"/> INDUSTRIAL <input type="checkbox"/> COMMERCIAL <input type="checkbox"/> INSTITUTIONAL
Number of EDU's Requested _____ Number of Employees _____ Estimated Water Usage _____ gpd <i>Note: All expected water demand calculations & documentation for requested EDU's must be provided for review/approval by the Authority prior to permit issuance</i>

Description of Project/ Facility _____

Name of Installer _____

Expected Start Date _____

FEES:	TAPPING FEE -	\$ 2,675.00	per EDU
	STANDARD METER PIT FEE -	\$ 925.00	per pit (TBD if non-residential)
	CONNECTION FEE -	\$ 220.00	Admin
	**INITIAL FEE -	\$ 3,820.00	(due prior to construction)

** Additional fees apply, which will include standard materials and inspection and any WBRA construction cost (including labor) from the water main to the meter pit – a separate invoice will be generated to the applicant after installation & inspection is complete.

- As of April 2020, water meter pits are required for all public water accounts. If the property owner chooses to employ a contractor to install the meter pit, then the initial fee can be reduced by an amount to be determined at time of agreement acceptance.
- Non-standard meter pit installations may require an increase in the meter pit fee, to be determined at the time of agreement acceptance.

 Email: lear@westbranch-ra.org

- The service line from the water main to the shutoff valve near the meter pit (near the property right-of-way) must be installed prior to pit placement. The property owner may choose to pay the Authority to complete this section of the service line installation at a cost to be determined on a case-by-case basis or may choose to employ a contractor to complete this work.
- Additional service lines may require a separate tapping fee, meter & pit.
- Service installation from meter pit to structure is the owner’s responsibility & at the owner’s expense.
- Detailed Specifications will be provided upon request.
- A separate permit will be required (please request an application) for any hydrants included in the proposed project.
- If your proposed connection point or service line construction path to the public water system is not located on the same parcel that is referenced on this application, then a permanent legal easement allowing this construction to take place must be filed at the courthouse.

The subject property owner does hereby apply for permission to make connection from the referenced property to the MBMA water system and agrees to conform with all Rules, Regulations, Ordinances and Specifications pertaining to public water and to repair any damage to sidewalks, curbs and/or property of others caused during the progress of the installation. By providing a signature below, the Property Owner/ Authorized Representative acknowledges all of the provided information and indicates that all required DEP planning has been completed and all required Easements and Zoning/Codes permits will be obtained.
