APPLICATION FOR PRIVATE FIRE PROTECTION SERVICE

NAME _____

SITE ADDRESS _____

MAILING ADDRESS _____

PHONE _____ Email _____

PROPOSED PROJECT DESCRIPTION _____

NUMBER OF HYDRANTS PROPOSED _____

INSTALLER CONTACT INFO _____

ENGINEER CONTACT INFO _____

EXPECTED START DATE _____

FEEES:	TAPPING FEE -	\$ 2,675.00 per EDU
	*CONNECTION FEE -	\$ 220.00 Administrative/Inspection
	METER PIT FEE -	\$ _____ TBD (based on design requirements and Authority services needed)
	TOTAL FEE -	\$ _____ TBD

* Additional construction and/ or inspection fees payable to the Authority will apply if MBMA/ WBRA provides installation services or excessive field inspections.

- If your proposed connection point or service line construction path to the public water system is not located on the same parcel that is referenced on this application, then a permanent legal easement (filed at the Courthouse) allowing this construction to take place must be provided to the Authority.
- Applicant acknowledges that the hydrant(s) will be installed at his/ her request & expense, and that the Authority will require maintenance per O&M Agreement.
- Available fire flow from the hydrant is not guaranteed.
- The hydrant permit can be revoked if hydrants are not operated responsibly.
- Applicant may be liable for damages anywhere in the water system caused by hydraulic hammer as a result of their hydrant operation – liquidated damage fee is currently \$1,000.00 per infraction.
- Any future hydrant removal must involve disconnection below grade.
- Fire Lines require meter pits with hydrants and backflow prevention at the right-of-way.
- Detailed plans providing all site layout data must be submitted with this application; a plan review by the Authority may be necessary to confirm exact amount due for permit issuance.
- Applicant shall assign an emergency contact person to notify the Authority upon hydrant usage.

OVER↓

Muncy Borough Municipal Authority
 PO Box 201
 Muncy, PA 17756
 Phone: 570-935-0087 Fax: 570-935-0248
 Email: lear@westbranch-ra.org

- All hydrants shall be inspected & tested semi-annually (per required Operation & Maintenance Agreement) by the Authority or a qualified third party, and all results must be provided to the Authority promptly.
- The resale of water in any quantity is strictly forbidden.
- Penalties may apply for non-compliance with any of these rules, regulations, or requirements.
- An account will be created upon activation of this permit and a monthly fee (see below, subject to change) will apply.
- To be distinguishable from public hydrants, private hydrants must be painted a specific color (to be determined by Authority).

Private Fire Protection Service Rate:

- Initial 1,000 gallons or less per month - \$16.00 per month
- Over 1,000 gallons per month - \$8.00 per thousand gallons

- A detailed plan has been provided with this application.
- A detailed plan has NOT been provided with this application. I understand that this may delay permit approval and that one must be provided prior to permit issuance.

The subject Property Owner does hereby apply for permission to make connection from the referenced property to the MBMA water system and agrees to conform with all Rules, Regulations, Ordinances and Specifications pertaining to public water and to repair any damage to sidewalks, curbs and/or property of others caused during the progress of the installation. By providing a signature below, the Property Owner/ Authorized Representative acknowledges all of the provided information, and indicates that all required DEP planning has been completed and all required Easements and Zoning/Codes permits will be obtained.
